Dear Dr. Aziz SOUIZI, Dear Editors,

I am pleased to submit an original research article entitled "GC/MS Analysis and Antibacterial Activity of the Essential Oil of Moroccan *Tetraclinis articulata* (Vahl) Masters" for consideration for publication in Mediterranean Journal of Chemistry. This manuscript builds on our prior Synthesis to determine the chemical composition and antibacterial activity of our oil.

We chose this Moroccan Journal: Mediterranean Journal of Chemistry, because it's indexed in SCUPUS, CrossRef, and Google Scholar...

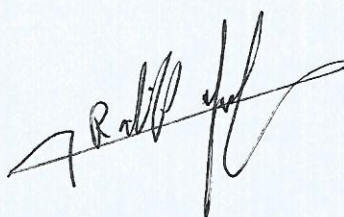

Our manuscript creates a paradigm for future studies on medicinal and aromatic plants harvested from Morocco especially studies that are interested in essential oils.

This manuscript has not been published and is not under consideration for publication elsewhere. We have no conflicts of interest to disclose.

Thank you for your consideration.

Sincerely,

RABIB Halima
